

# CURRICULUM VITAE

## of Milan M. Ćirković

♣ with the complete list of publications ♣

### 1. Personal data

**Name:** Milan M. Ćirković

**Date of birth:** 11. III 1971.

**Place of birth:** Belgrade, Serbia (then Yugoslavia)

**Sex:** male

**Marital status:** single

**Contact address:** Astronomical Observatory Belgrade, Volgina 7, 11160 Belgrade, Serbia

**Home phone:** +381-11-2419289

**Business phone:** +381-11-3089079

**Fax:** +381-11-2419553

**Primary e-mail address:** [mcirkovic@aob.bg.ac.yu](mailto:mcirkovic@aob.bg.ac.yu)

**Secondary e-mail address:** [arioch@eunet.yu](mailto:arioch@eunet.yu)

**WWW address:** <http://www.aob.bg.ac.yu/~mcirkovic>

**Blog (in Serbian):** <http://blog.b92.net/blog/4464/Milan%20M.%20%C4%86irkovi%C4%87/>

### 2. Academic degrees

Year	Degree	Institution	Place	Subject
2000	Ph. D.	Dept. of Physics & Astronomy, State University of New York	Stony Brook, USA	Physics
1995	M. Sc.	Dept. of Earth & Space Sciences, State University of New York	Stony Brook, USA	Earth & Space Sciences
1994	B. Sc.	Faculty of Physics, University of Belgrade	Belgrade, Serbia	Theoretical physics

### 3. Professional background

Period	Position	Institution	Place
07/2004 – present	Senior Research Associate	Astronomical Observatory of Belgrade	Belgrade, Serbia
09/2003 – present	Assistant Professor	Department of Physics, University of Novi Sad	Novi Sad, Serbia
02/1997 – 07/2004	Research Associate	Astronomical Observatory of Belgrade	Belgrade, Serbia
02/1996 – 05/1998	Research Assistant	State University of New York	Stony Brook, USA
08/1994 – 01/1996	Teaching Assistant	State University of New York	Stony Brook, USA

## 4. Research interests

- 4.1. **Astrophysical cosmology.** Evolution of the gaseous content of the universe and QSO absorption line systems; baryonic dark matter in general and MACHOs in particular; two-populations models for the Ly $\alpha$  forest absorption systems; history of star formation in galaxies; opacity of galactic disks for the Lyman continuum photons; molecular hydrogen at high redshift; the problem of MACHO formation.
- 4.2. **Astrobiology.** Astronomical aspects of the terrestrial catastrophism; connection of structure and evolution of comets and the H<sub>2</sub> subcomponent of the Galactic disk; influence of astronomical catastrophes on the history of our (and hypothetical other) civilizations; possible impact on SETI studies; suggested periodicity of the major bombardment episodes and mass extinctions; philosophical aspects of astrobiology.
- 4.3. **History and philosophy of physical sciences.** Anthropic principle, its cognitive significance and connection with the values of cosmological parameters; philosophy of quantum mechanics; the influence of ideas of early cosmological models (classical steady-state, conformally invariant cosmology, etc.) on the modern astrophysical and cosmological thought; the problem of the arrow of time; existence of extraterrestrial intelligence and the anthropic reasoning; archaeoastronomy; history of physics and astronomy in Serbia and the Mediterranean.
- 4.4. **Physical eschatology.** Future evolution of the universe; duration of the stelliferous era and the history of future star formation in galaxies; non-conventional modes of star formation; cosmological future of intelligent life; epistemological basis of physical eschatology.
- 4.5. **Foundations of quantum mechanics and quantum information processing.** temporal correlations and the status of time in quantum mechanics; dynamical reduction quantum theories; the many-worlds “interpretation” of quantum mechanics and its cosmological and philosophical significance; quantum cosmology; quantum information and computation; possible role of quantum mechanics in mental states and processes.
- 4.6. **Scientific inspiration in arts and culture.** Cosmological paradigms and interpretation of the objects of art; archaeoastronomy; importance of astronomical and quantum-theoretical ideas and revolutions for the development of the modern democratic, humanistic and anti-totalitarian thought.

## 5. Theses and dissertations

**Note:** Here, as well as in the further cases of publications written in a different language, the original title will be quoted and the English translation will be given in brackets.

- 5.1. *Gaseous Galactic Haloes and Ly $\alpha$  Absorption Line Systems*: Ph. D. dissertation, State University of New York at Stony Brook, June 2000. Advisors: Profs. Peter W. Stephens and Philip M. Solomon.
- 5.2. *Stacionarne kosmologije i antropički princip*. [Stationary Cosmologies and the Anthropic Principle]: Alternative Academic Network (AAOM) thesis, Belgrade, January 2000. Advisor: Prof. Petar Grujić. Published in adapted form in reference 6.26.

- 5.3. *Nelokalnost vremena u svetlu Frensonovog eksperimenta* [Temporal Non-locality in Light of the Franson's Experiment]: B. Sc. thesis, Belgrade University, June 1994. Advisors: Profs. Fedor Herbut and Milan Vujičić.

## 6. Books

- 6.1. *Global Catastrophic Risks*. Nick Bostrom and Milan M. Ćirković (editors) (Oxford University Press, Oxford, 2008), 554 pages; ISBN 978-0198570509.
- 6.2. *Studying Nature Through Centuries: Proceedings of the Scientific Conference, Belgrade October 16-19, 2008*. Petar Grujić, Slobodan Ninković and Milan M. Ćirković (Publications of the Astronomical Observatory of Belgrade), in press.
- 6.3. *Uvod u vangalaktičku astronomiju* [An Introduction to Extragalactic Astronomy]. Milan M. Ćirković (University of Novi Sad, Novi Sad, 2008), 120 pages (in Serbian); ISBN 978-86-7031-113-8.
- 6.4. *Poslednjih 14 milijardi godina: astronomija u 609 pitanja i odgovora* [The Last 14 Billion Years: Astronomy in 609 Questions and Answers]. Milan M. Ćirković, Aleksandar Zorkić and Slobodan Spremo (Studio Spremo, Novi Sad, 2006), 377 pages (in Serbian); ISBN 86-86565-00-X.
- 6.5. *Proceedings of the XIV National Conference of Serbian Astronomers*. Zoran Knežević, Zorica Cvetković and Milan M. Ćirković (editors) (Publications of the Astronomical Observatory of Belgrade, vol. **80**, Belgrade, 2006), 383 pages; ISBN 86-80019-07-0.
- 6.6. *QSO Absorption Spectroscopy and Baryonic Dark Matter*. Milan M. Ćirković (Publications of the Astronomical Observatory of Belgrade, vol. **79**, 2005), 210 pages; ISBN 86-80019-05-4.

## 7. Publications in research journals

- 7.1. The Total Mass of the Early-Type Galaxy NGC 4649 (M60). S. Samurović and M. M. Ćirković (2008): *Serbian Astronomical Journal*, vol. **177**, in press.
- 7.2. Astrobiological Phase Transition: Towards Resolution of Fermi's Paradox. Milan M. Ćirković and Branislav Vukotić (2008): *Origin of Life and Evolution of the Biosphere*, vol. **38**, pp. 535-547.
- 7.3. MOND vs. Newtonian dynamics in early-type galaxies. The case of NGC 4649 (M60). S. Samurović and Milan M. Ćirković (2008): *Astronomy and Astrophysics*, vol. **488**, pp. 873-877.
- 7.4. Against the Empire. Milan M. Ćirković (2008): *Journal of the British Interplanetary Society*, vol. **61**, pp. 246-254.
- 7.5. Minihalo Model for the Low-Redshift Ly $\alpha$  Absorbers Revisited. Ana Lalović and Milan M. Ćirković (2008): *Serbian Astronomical Journal*, vol. **176**, pp. 37-44.
- 7.6. Neocatastrophism and the Milky Way Astrobiological Landscape. Branislav Vukotić and Milan M. Ćirković (2008): *Serbian Astronomical Journal*, vol. **176**, pp. 71-79.
- 7.7. Mona Lisa – The Ineffable Smile of Quantum Mechanics. Slobodan Prvanović and Milan M. Ćirković (2007): *Symmetry*, vol. **18**, pp. 171-190.
- 7.8. Evolutionary Catastrophes and the Goldilocks Problem. Milan M. Ćirković (2007): *International Journal of Astrobiology*, vol. **6**, pp. 325-329.

- 7.9. On the Timescale Forcing in Astrobiology. Branislav Vukotić and Milan M. Ćirković (2007): *Serbian Astronomical Journal*, vol. **175**, pp. 45-50.
- 7.10. H<sub>2</sub> and HD Absorption Lines and the Cosmic Ray Flux in High-z Galaxies. Milan M. Ćirković, Ivana Damjanov, and Ana Lalović (2006): *Baltic Astronomy*, vol. **15**, pp. 571-580.
- 7.11. Too Early? On the Apparent Conflict of Astrobiology and Cosmology. Milan M. Ćirković (2006): *Biology and Philosophy*, vol. **21**, pp. 369-379.
- 7.12. Anthropic Reasoning, Naturalism and the Contemporary Design Argument. Mark A. Walker and Milan M. Ćirković (2006): *International Studies in the Philosophy of Science*, vol. **20**, pp. 285-307.
- 7.13. Zloupotreba antropičkog načela: kvazireligiozna kvazinauka uhvaćena na delu. [Misuse of the Anthropic Principle: Quasireligious Quasiscience Caught in Act] Milan M. Ćirković (2006): *Theoria*, vol. **XLVIII/1-2** (January-March 2006), pp. 21-35 (in Serbian).
- 7.14. Galactic Gradients, Postbiological Evolution and the Apparent Failure of SETI. Milan M. Ćirković and Robert J. Bradbury (2006): *New Astronomy*, vol. **11**, pp. 628-639.
- 7.15. Is Quantum Suicide Painless? On an Apparent Violation of the Principal Principle. Milan M. Ćirković (2006): *Foundations of Science*, vol. **11**, pp. 287-296.
- 7.16. Brown Dwarf Accretion: Nonconventional Star Formation over Very Long Timescales. Milan M. Ćirković (2005): *Serbian Astronomical Journal*, vol. **171**, pp. 11-17.
- 7.17. Physics vs. Semantics: A Puzzling Case of a Missing Quantum Theory. Milan M. Ćirković (2005): *Foundations of Physics*, vol. **35**, pp. 817-838.
- 7.18. Adaptationism Fails to Resolve Fermi's Paradox. Milan M. Ćirković, Ivana Dragičević and Tanja Berić-Bjedov (2005): *Serbian Astronomical Journal*, vol. **170**, pp. 89-100.
- 7.19. "Permanence" – An Adaptationist Solution to Fermi's Paradox? Milan M. Ćirković (2005): *Journal of the British Interplanetary Society*, vol. **58**, pp. 62-70.
- 7.20. Kant i vangalaktička revolucija u astronomiji [Kant and the Extragalactic Revolution in Astronomy] Milan M. Ćirković (2005): *Theoria*, vol. XLVII/1-2 (March-June 2004), pp. 95-109 (in Serbian).
- 7.21. On the Temporal Aspect of the Drake Equation and SETI. Milan M. Ćirković (2004): *Astrobiology*, vol. **4**, pp. 225-231.
- 7.22. Agencies, Capacities, and Anthropic Self-Selection. Milan M. Ćirković (2004): *Philosophical Writings*, vol. **27** (Autumn 2004), pp. 43-62.
- 7.23. The Anthropic Principle and the Duration of the Cosmological Past. Milan M. Ćirković (2004): *Astronomical and Astrophysical Transactions*, vol. **23**, pp. 567-597.
- 7.24. Is Many Likelier than Few? A Critical Assessment of the Self-Indicating Assumption. Milan M. Ćirković (2004): *Epistemologia*, vol. **27**, pp. 265-298.
- 7.25. Macroscopic Quantum Effects in Biophysics and Consciousness. Dejan Raković, Miroljub Dugić, and Milan M. Ćirković (2004): *Neuroquantology*, vol. **2**, issue **4**, pp. 237-262.
- 7.26. Is the "Star Trek" Concept of Aliens Really Naive? – A Comment on Duric and Field. Milan M. Ćirković (2004): *Serbian Astronomical Journal*, vol. **168**, pp. 71-74.
- 7.27. Forecast for the Next Eon: Applied Cosmology and the Long-Term Fate of Intelligent Beings. Milan M. Ćirković (2004): *Foundations of Physics*, vol. **34**, pp. 239-261.
- 7.28. Apparent Speed of Gravity and Backward Causation. Milan M. Ćirković and Miroljub Dugić (2004): *Epistemologia*, vol. **26**, pp. 107-118.

- 7.29. A Comment on Tectonics and the Future of Life on Terrestrial Planets. Milan M. Ćirković (2004): *Precambrian Research*, vol. **130**, pp. 289-291.
- 7.30. Geo-Engineering Gone Awry: A New Partial Solution of Fermi's Paradox. Milan M. Ćirković and Richard B. Cathcart (2004): *Journal of the British Interplanetary Society*, vol. **57**, pp. 209-215.
- 7.31. Three's a Crowd: On Causes, Entropy, and Physical Eschatology. Milan M. Ćirković and Vesna Milošević-Zdjelar (2004): *Foundations of Science*, vol. **9**, pp. 1-24.
- 7.32. Earths: Rare in Time, Not Space? Milan M. Ćirković (2004): *Journal of the British Interplanetary Society*, vol. **57**, pp. 53-59.
- 7.33. Cosmic Irony: SETI Optimism from Catastrophes? Milan M. Ćirković (2004): *Contact in Context*, vol. **2**, issue 1  
(<http://cic.setileague.org/cic/v2i1/irony.pdf>).
- 7.34. Ancient Origins of a Modern Anthropic Cosmological Argument. Milan M. Ćirković (2003): *Astronomical and Astrophysical Transactions*, vol. **22**, pp. 879-886.
- 7.35. The Thermodynamical Arrow of Time: Reinterpreting the Boltzmann-Schuetz Argument. Milan M. Ćirković (2003): *Foundations of Physics*, vol. **33**, pp. 467-490.
- 7.36. On Determination of the Cosmic Ray Flux Using Molecular Hydrogen Absorption Lines. Milan M. Ćirković and Ivana Damjanov (2003): *Serbian Astronomical Journal*, vol. **167**, pp. 17-22.
- 7.37. On the Importance of SETI for Transhumanism. Milan M. Ćirković (2003): *Journal of Evolution and Technology*, vol. **13**  
(<http://www.jetpress.org/volume13/cirkovic.html>).
- 7.38. **Resource Letter PEs-1:** Physical eschatology. Milan M. Ćirković (2003): *American Journal of Physics*, vol. **71**, pp. 122-133.
- 7.39. The Chemical Composition of the Halo and Evolutionary Problems. Slobodan Ninković and Milan M. Ćirković (2003): *Astrophysics and Space Science*, vol. **284**, pp. 783-786.
- 7.40. The Doomsday Argument and the Self-Indication Assumption: Reply to Olum. Nick Bostrom and Milan M. Ćirković (2003): *Philosophical Quarterly*, vol. **53**, pp. 83-91.
- 7.41. Kinematics in the  $z = 2.81$  Galaxy and the Evidence for Rotation. Milan M. Ćirković (2003): *Astrophysics and Space Science*, vol. **283**, pp. 269-273.
- 7.42. Extraterrestrial Intelligence and Doomsday: A Critical Assessment of the No-Outsider Requirement. Milan M. Ćirković and Vesna Milošević-Zdjelar (2003): *Serbian Astronomical Journal*, vol. **166**, pp. 1-11.
- 7.43. How Many Universes Are Necessary for an Ice Cream to Melt? Milan M. Ćirković (2003): *Serbian Astronomical Journal*, vol. **166**, pp. 55-59.
- 7.44. On the First Anthropic Argument in Astrobiology. Milan M. Ćirković (2002): *Earth, Moon, and Planets*, vol. **91**, pp. 243-254.
- 7.45. Quantum Information Processing: The Case of Vanishing Interaction Energy. Miroljub Dugić and Milan M. Ćirković (2002): *Physics Letters A*, vol. **302**, pp. 291-298.
- 7.46. A new proposition for redating the Mithraic tauroctony scene. Edi Bon, Milan M. Ćirković, and Ivana Milosavljević (2002): *Astronomische Nachrichten*, vol. **323**, pp. 579-580.
- 7.47. Quantum Parallelism in Quantum Information Processing. Miroljub Dugić and Milan M. Ćirković (2002): *International Journal for Theoretical Physics*, vol. **41**, pp. 1641-1649.
- 7.48. Is the Universe Really That Simple? Milan M. Ćirković (2002): *Foundations of Physics*, vol. **32**, pp. 1141-1157.

- 7.49. Entropy and Eschatology: A Comment on Kurováts's Paper 'Heat Death in Ancient and Modern Thermodynamics'. Milan M. Ćirković (2002): *Open Systems and Information Dynamics*, vol. **9**, pp. 291-299.
- 7.50. Cosmological Forecast and Its Practical Significance. Milan M. Ćirković (2002): *Journal of Evolution and Technology* (online journal at <http://www.jetpress.org>), vol. **12** (<http://www.jetpress.org/volume12/CosmologicalForecast.htm>).
- 7.51. Laudatores Temporis Acti, or Why Cosmology is Alive and Well – A Reply to Disney. Milan M. Ćirković (2002): *General Relativity and Gravitation*, vol. **34**, pp. 119-130.
- 7.52. Backward Causation, Isolation and the Pursuit of Justice. Milan M. Ćirković and Suzana Cvetičanin (2002): *Epistemologia*, vol. **25**, pp. 145-162.
- 7.53. Anthropic Fluctuations vs. Weak Anthropic Principle. Milan M. Ćirković (2002): *Foundations of Science*, vol. **7**, pp. 453-463.
- 7.54. On a Possible Physical Metatheory of Consciousness. Miroljub Dugić, Milan M. Ćirković, and Dejan Raković (2002): *Open Systems and Information Dynamics*, vol. **9**, pp. 153-166.
- 7.55. Computationalism and Anthropocentrism: That Old Double Standard. Milan M. Ćirković and Ana Vlajković (2002): *The Noetic Journal*, vol. **3**, pp. 162-168.
- 7.56. The Anthropic Arrow of Time and Realistic World Models: On Price and Atemporal Universe. Milan M. Ćirković (2001): *Serbian Astronomical Journal*, vol. **164**, pp. 41-52.
- 7.57. Cosmological Constant and the Fate of the DDM Theory. Milan M. Ćirković and Srdjan Samurović (2001): *Astronomy and Astrophysics*, vol. **373**, pp. 377-380.
- 7.58. On the Maximal Quantity of Processed Information in the Physical Eschatological Context. Milan M. Ćirković and Marina Radujkov (2001), *Serbian Astronomical Journal*, vol. **163**, pp. 53-56.
- 7.59. Arsenijević, Dajson, singularnost [Arsenijević, Dyson, Singularity] Milan M. Ćirković (2000): *Theoria*, vol. **XLIII, 1/2**, pp. 87-103 (in Serbian).
- 7.60. On the Small-Scale Clustering of Ly $\alpha$  Forest Clouds. Milan M. Ćirković and Kenneth M. Lanzetta (2000): *Monthly Notices of the Royal Astronomical Society*, vol. **315**, pp. 473-478.
- 7.61. Cosmological Constant and the Final Anthropic Hypothesis. Milan M. Ćirković and Nick Bostrom (2000): *Astrophysics and Space Science*, vol. **274**, pp. 675-687.
- 7.62. Cooling vs. Absorption Radius in Galaxies. Milan M. Ćirković, Srdjan Samurović and Aleksandra Djorić (2000): *Astrophysics and Space Science*, vol. **274**, pp. 867-875.
- 7.63. Note on Singularities and the Arrow of Time. Milan M. Ćirković (2000): *Serbian Astronomical Journal*, vol. **162**, pp. 91-95.
- 7.64. The Anthropic Argument against Infinite Past and the Eddington-Lemaître Universe. Milan M. Ćirković (2000): *Serbian Astronomical Journal*, vol. **161**, pp. 33-37.
- 7.65. Kinematics of a High-Redshift Galaxy: A Case Study. Milan M. Ćirković (2000): *Serbian Astronomical Journal*, vol. **161**, pp. 5-8.
- 7.66. Column Density Distribution of Galactic Ly $\alpha$  Absorption Systems. Milan M. Ćirković and Srdjan Samurović (2000): *Astrophysics and Space Science*, vol. **271**, pp. 91-95.
- 7.67. Stacionarne kosmologije i antropički princip [Stationary Cosmologies and the Anthropic Principle] Milan M. Ćirković (1999), *Theoria*, vol. **1-2/1999**, pp. 81-111 (in Serbian).
- 7.68. Massive Neutrino Decay and the Shape of the Galactic Dark Halo. Srdjan Samurović and Milan M. Ćirković (1999): *Journal of Research in Physics*, vol. **28**, pp. 171-180.

- 7.69. Flattened Galactic Haloes and Baryonic Dark Matter. Srdjan Samurović, Milan M. Ćirković, and Vesna Milošević-Zdjelar (1999): *Monthly Notices of the Royal Astronomical Society*, vol. **309**, pp. 63-79.
- 7.70. Towards a Direct Detection of Warm Gas in Galactic Haloes at Cosmological Distances. Milan M. Ćirković, Jonathan Bland-Hawthorn, and Srdjan Samurović (1999): *Monthly Notices of the Royal Astronomical Society*, vol. **306**, pp. L15-L18.
- 7.71. Damped Ly $\alpha$  System Toward QSO 1854+116 - A New Type Of Absorber? Milan M. Ćirković (1999): *Serbian Astronomical Journal*, vol. **160**, pp. 11-14.
- 7.72. Future of Galaxies and the Fate of Intelligent Beings. Milan M. Ćirković (1999): *Serbian Astronomical Journal*, vol. **159**, pp. 79-86.
- 7.73. On the Stability of Protogalactic Clouds. I. Field Length in the Adiabatic Models. Milan M. Ćirković (1999): *Serbian Astronomical Journal*, vol. **159**, pp. 39-44.
- 7.74. Some Consequences of a Class of Gaseous Galactic Halo Models. Milan M. Ćirković (1998): *Astrophysics and Space Science*, vol. **262**, pp. 497-508.
- 7.75. Intergalactic Pressure and the Maximal Extent of Gaseous Haloes of Field Galaxies. Milan M. Ćirković and Alexei V. Yurchenko (1998): *Astrophysics and Space Science*, vol. **262**, pp. 39-52.
- 7.76. On the Comparison of Metal and Ly $\alpha$  Absorption in Galactic Gaseous Haloes. Milan M. Ćirković (1998): *Serbian Astronomical Journal*, vol. **158**, pp. 9-13.
- 7.77. On the Total Absorption Cross-Section of Galaxies. II. The Case of  $\Lambda$  Cosmologies and the Covering Factor Variation. Milan M. Ćirković and S. Samurović (1998): *Serbian Astronomical Journal*, vol. **158**, pp. 3-7.
- 7.78. Pressure at the ISM-Halo Interface: A Reheating Frequency Dependence. Milan M. Ćirković (1998): *Serbian Astronomical Journal*, vol. **157**, pp. 19-24.
- 7.79. On the Possible Observations of Intergalactic or Halo Clouds in Optical Emission. Milan M. Ćirković and Srđan Samurović (1998): *Astrophysics and Space Science*, vol. **257**, pp. 95-106.
- 7.80. A Note on the Total Absorption Cross-Section of Galaxies and Ly $\alpha$  Forest Clouds. M. M. Ćirković, S. Samurović, D. Ilić, and J. Petrović (1997): *Bulletin Astronomique de Belgrade*, vol. **156**, pp. 37-41.

## 8. Summaries and abstracts

- 8.1. Astrobiological Phase Transition. Milan M. Ćirković (2006): in *Proceedings of the XIV National Conference of Serbian Astronomers*, ed. by Z. Knežević, Z. Cvetković and M. M. Ćirković (Publications of the Astronomical Observatory of Belgrade, vol. **80**, Belgrade), p. 205.
- 8.2. Gaseous Galactic Haloes and Ly $\alpha$  Absorption Line Systems. Milan M. Ćirković (2003): Dissertation abstract in *Proceedings of the XIII National Conference of Yugoslav Astronomers*, October 17-20, 2002, ed. J. Milogradov-Turin and G. M. Popović, Publications of the Astronomical Observatory of Belgrade, vol. **75**, pp. 143-144.
- 8.3. A New Proposition for Redating of the Mithraic Tauroctony Scene. Edi Bon, Milan M. Ćirković, and Ivana Milosavljević (2001): in *Abstracts of Contributed Talks and Posters presented at the Joint European and National Meeting JENAM 2001* of the European Astronomical Society and the Astronomische Gesellschaft at Munich,

- September 10-15, 2001, ed. Reinhard E. Schielicke (Astronomische Gesellschaft Abstract Series No. 18, 2001), p. 261.
- 8.4. Gaseous Galactic Haloes and Ly $\alpha$  Absorption Line Systems. Milan M. Ćirković (2000): *Publications of the Astronomical Society of the Pacific*, vol. **112**, p. 1507.

## 9. Book reviews

- 9.1. **A review of Ian McDonald's *Brazyl*.** Milan M. Ćirković (2008): *Journal of Evolution and Technology*, vol. **18**, pp. 84-92 (<http://jetpress.org/v17/cirkovic.htm>).
- 9.2. **Natural History**, by Justina Robson. Milan M. Ćirković (2007): *Journal of Evolution and Technology*, vol. **16**, 167-170 (<http://www.jetpress.org/v16/cirkovic.html>).
- 9.3. **Minding the Heavens: The Story of Our Discovery of the Milky Way**, by Leila Belkora. Milan M. Ćirković (2006): *Europhysics News*, vol. **37/1**, p. 32.
- 9.4. **Where is Everybody? Fifty Solutions to the Fermi's Paradox** by Stephen Webb – Book Review. Milan M. Ćirković (2005): *Origin of Life and Evolution of the Biosphere*, vol. **35**, pp. 61-68.
- 9.5. **Book Review: Modern Cosmology**, by Scott Dodelson. Milan M. Ćirković (2004): *Foundations of Physics*, vol. **34**, pp. 541-544.
- 9.6. **Real Space: The fate of physical presence in the digital age, on and off planet**, by Paul Levinson. Milan M. Ćirković (2004): *Spaceflight*, vol. **46**, no. 3 (March issue), p. 130.
- 9.7. **Anthropic Bias: Observation Selection Effects in Science and Philosophy**, by Nick Bostrom – Book Review. Milan M. Ćirković (2003): *Foundations of Science*, vol. **8**, pp. 417-423.
- 9.8. **Cosmic Rays at Earth: Researcher's Reference Manual and Data Book**, by Peter K. F. Grieder. Milan M. Ćirković (2002): *Europhysics News*, vol. **33/6**, p. 219.
- 9.9. Book Review: **Anthropic Bias: Observation Selection Effects in Science and Philosophy**, by Nick Bostrom. Milan M. Ćirković (2002): *Foundations of Physics*, vol. **32**, pp. 1797-1801.

## 10. Book chapters

- 10.1. Observation selection effects: the Fermi paradox, the Doomsday argument, and the Simulation argument. Milan M. Ćirković (2008): in *Global Catastrophic Risks* (Oxford University Press, Oxford, ISBN 978-0198570509), pp. 120-145.
- 10.2. Zloupotreba antropičkog načela u svrhe kreacionizma: kvazireligiozna kvazinauka uhvaćena na delu [Misuse of the Anthropic Principle by Creationists: Quasireligious Pseudoscience Caught in Act]. Milan M. Ćirković (2007): in *Religion and Epistemology* (Dereta, Beograd), pp. 239-261 (in Serbian).
- 10.3. Macroengineering in the Galactic Context: A New Agenda for Astrobiology. Milan M. Ćirković (2006): in *Macro-Engineering: A Challenge for the Future*, ed. by Viorel Badescu, Richard B. Cathcart, and Roelof D. Schuiling (Springer Verlag, New York, ISBN-10 1-4020-3739-2), pp. 281-300.
- 10.4. Extreme Climate Control Membrane Structures: N<sup>th</sup> Degree Macro-Engineering. Richard B. Cathcart and Milan M. Ćirković (2006): in *Macro-Engineering: a*

- Challenge for the Future*, ed. by Viorel Badescu, Richard B. Cathcart, and Roelof D. Schuiling (Springer Verlag, New York, ISBN-10 1-4020-3739-2), pp. 151-174.
- 10.5. Bor, Everet i Šerlok Holms: zagonetni slučaj nestale kvantne teorije. [Bohr, Everett, and Sherlock Holmes: The Puzzling Case of the Missing Quantum Theory] Milan M. Ćirković (2004): in *Epistemološki problemi u nauci* [Epistemological Problems in Science], ed. by Petar V. Grujić and Miroslav Ivanović (Institut za kriminološka i sociološka istraživanja, Belgrade, ISBN 86-902557-8-8), pp. 301-332.

## 11. Papers currently in the publication procedure and in preparation

- 11.1. Galactic “Punctuated Equilibrium”: How to Undermine Carter's Anthropic Argument in Astrobiology. Milan M. Ćirković, Branislav Vukotić, and Ivana Dragičević (2008): *Astrobiology*, vol. **8**, in press.
- 11.2. O neuspehu reduktionizma u kosmologiji. [On the Failure of Reductionism in Cosmology] Milan M. Ćirković (2008): *Theoria*, vol. **51**, in press (in Serbian).
- 11.3. Column Density Distribution Function of Hypothetical Ly $\alpha$  Absorption Systems in Galaxies. Ana Lalović and Milan M. Ćirković (2008): *New Astronomy*, submitted for publication.
- 11.4. Sailing the Archipelago. Milan M. Ćirković (2008): *Collapse*, vol. **6**, in press.
- 11.5. Should We Worry about Human Extinction? Jason Gaverick Matheny, Pablo Stafforini, and Milan M. Ćirković (2009): in preparation.
- 11.6. Do Recycling and Schmidt Law Solve the Gas Consumption Puzzle in Spiral Disks? Ivana Damjanov and Milan M. Ćirković (2009): *Monthly Notices of the Royal Astronomical Society*, submitted for publication.
- 11.7. Fermi's Paradox as the Paradox of the First Tier: An Agenda for Astrobiology. Milan M. Ćirković (2009): in preparation.
- 11.8. Nonconventional Star Formation through Brown Dwarfs' Accretion. Milan M. Ćirković (2009): in preparation.
- 11.9. Are SETI Projects Probing the “Right Wall” of Complexity? Milan M. Ćirković and Karl Schroeder (2009): in preparation.
- 11.10. Is the Past Really Key to the Future? Observation Selection Effects and Human Extinction Risks. Milan M. Ćirković and Nick Bostrom (2009): *Risk Analysis*, submitted for publication.
- 11.11. Terrestrial Impact History, Observation Selection Effects, and Correlations. Tatjana Jakšić and Milan M. Ćirković (2009): in preparation.
- 11.12. Resource Letter: The Fine Tuning of the Universe. Clément Vidal and Milan M. Ćirković (2009): in preparation.

## 12. Conference lectures and contributions

- 12.1. A Comment on B. Petronijevic's Work “L'Evolution Universelle”. V. Trajkovska, S. Ninković, and Milan M. Ćirković (2006): in *Proceedings of the XIV National Conference of Serbian Astronomers*, ed. by Z. Knežević, Z. Cvetković and M. M. Ćirković (Publications of the Astronomical Observatory of Belgrade, vol. **80**, Belgrade), pp. 259-263.

- 12.2. O jednoj epizodi iz Srećkovićevog “Detinjstva” i istorijskoj kontingenciji. [On an episode from Srećković's Childhood] Milan M. Ćirković (2005): a contribution to the Meeting on Academician Panta Srećković, Rača, 18. November 2005, in *Mythology Collection*, ed. by Miodrag Stojanović (Centre for the Mythological Studies of Serbia, Rača) vol. **14**, pp. 45-52 (in Serbian).
- 12.3. Boundaries of the Habitable Zone: Unifying Dynamics, Astrophysics, and Astrobiology. Milan M. Ćirković (2005): in *Dynamics of Populations of Planetary Systems Proceedings IAU Colloquium No. 197*, ed. by Z. Knežević and A. Milani (Cambridge University Press, Cambridge), pp. 113-118.
- 12.4. Star Formation Timescales in Spiral Galaxies. Ivana Damjanov and Milan M. Ćirković (2005): contributed paper to the Balkan Astronomical Meeting, 14-18 June 2004, Rozhen, Bulgaria, in *Aerospace Research in Bulgaria* (Space Research Institute, Sofia), vol. **20**, pp. 153-160.
- 12.5. Fuelling Star-Formation – The Fate of Halo Baryons? Ivana Damjanov and Milan M. Ćirković (2004): in *Baryons in Dark Matter Halos*, proceedings of the international meeting in Novigrad, Croatia (October 5-9, 2004), ed. by R. J. Dettmar, U. Klein, and P. Salucci (Proceedings of Science, Trieste; <http://pos.sissa.it/>), BDMH2004/078.
- 12.6. Coherent Archaeo-catastrophism – A Missing Link? Edi Bon and Milan M. Ćirković (2004): poster at the IAU Colloquium 197, Dynamics of Populations of Planetary Systems, Belgrade August 31-September 4 2004.
- 12.7. Baryonic dark matter – structure and dynamics. Milan M. Ćirković (2003): in *Invited Lectures at the Fifth General Conference of the Balkan Physical Union BPU-5*, ed. by S. Jokić, I. Milošević, and I. Savić (Serbian Physical Society, Belgrade, 2004), pp. 27-37.
- 12.8. Five Roads to the Second Law. Milan M. Ćirković (2003): in *Proceedings of the Fifth General Conference of the Balkan Physical Union BPU-5*, ed. by S. Jokić, I. Milošević, A. Balaž, and Z. Nikolić (Serbian Physical Society, Belgrade), pp. 1989-1994.
- 12.9. Future of Galactic Star Formation. Ivana Damjanov and Milan M. Ćirković (2003): in *Proceedings of the Fifth General Conference of the Balkan Physical Union BPU-5*, ed. by S. Jokić, I. Milošević, A. Balaž, and Z. Nikolić (Serbian Physical Society, Belgrade), pp. 155-162.
- 12.10. Theories of Everything, Randomness, Predictability. Milan M. Ćirković (2003): in *Proceedings of the Fifth General Conference of the Balkan Physical Union BPU-5*, ed. by S. Jokić, I. Milošević, A. Balaž, and Z. Nikolić (Serbian Physical Society, Belgrade), pp. 1977-1982.
- 12.11. Alternative Explanations of the Cosmic Microwave Background – A Historical Perspective. Milan M. Ćirković (2003): in *Proceedings of the Fifth General Conference of the Balkan Physical Union BPU-5*, ed. by S. Jokić, I. Milošević, A. Balaž, and Z. Nikolić (Serbian Physical Society, Belgrade), pp 2011-2016.
- 12.12. Duration of the Stelliferous Era. Milan M. Ćirković (2002): Invited lecture in *Proceedings of the XIII National Conference of Yugoslav Astronomers October 17-20, 2002*, ed. J. Milogradov-Turin and G. M. Popović, *Publications of the Astronomical Observatory of Belgrade*, vol. **75**, pp. 159-165.
- 12.13. Anthropic-Acausal Approach to the Solution of the Arrow of Time Puzzle. Milan M. Ćirković (2003): contributed paper in *Proceedings of the XIII National Conference of Yugoslav Astronomers October 17-20, 2002*, ed. J. Milogradov-Turin and G. M.

- Popović, *Publications of the Astronomical Observatory of Belgrade*, vol. **75**, pp. 267-273.
- 12.14. The Third Way Out of the Anthropic Coincidence Quandary. Milan M. Ćirković (2003): contributed paper in *Proceedings of the XIII National Conference of Yugoslav Astronomers* October 17-20, 2002, ed. J. Milogradov-Turin and G. M. Popović, *Publications of the Astronomical Observatory of Belgrade*, vol. **75**, pp. 263-266.
- 12.15. Cosmological Constant and the Ly-Alpha Forest Statistics. Nikola Milutinović, Milan M. Ćirković and Katarina Kovač (2002): contributed paper in *Proceedings of the XIII National Conference of Yugoslav Astronomers* October 17-20, 2002, ed. J. Milogradov-Turin and G. M. Popović, *Publications of the Astronomical Observatory of Belgrade*, vol. **75**, pp. 189-192.
- 12.16. Are Biological and Astrophysical Timescales Truly Uncorrelated? Ivana Dragičević and Milan M. Ćirković (2002): contributed paper in *Proceedings of the XIII National Conference of Yugoslav Astronomers* October 17-20, 2002, ed. J. Milogradov-Turin and G. M. Popović, *Publications of the Astronomical Observatory of Belgrade*, vol. **75**, pp. 307-311.
- 12.17. Debates on the Philosophy of Science Issues in Serbia in the Beginning of the XX Century. Radomir Đorđević and Milan M. Ćirković (2002): contributed paper in *Proceedings of the XIII National Conference of Yugoslav Astronomers* October 17-20, 2002, ed. J. Milogradov-Turin and G. M. Popović, *Publications of the Astronomical Observatory of Belgrade*, vol. **75**, pp. 293-296.
- 12.18. Predictability vs. Randomness in Cosmology. Milan M. Ćirković (2002): contributed paper in *Proceedings of the XIII National Conference of Yugoslav Astronomers* October 17-20, 2002, ed. J. Milogradov-Turin and G. M. Popović, *Publications of the Astronomical Observatory of Belgrade*, vol. **75**, pp. 185-188.
- 12.19. QSO Absorbing Clouds and Baryonic Dark Matter. Milan M. Ćirković, Vesna Milošević-Zdjelar and Srdjan Samurović (2002): contributed paper to *21<sup>st</sup> Symposium on the Physics of Ionized Gases (SPIG 2002)*, edited by M. K. Radović and M. S. Jovanović (Dept. of Physics, University of Niš, Niš, Yugoslavia), pp. 589-592.
- 12.20. Ruđer Bošković i počeci "Teorija svega" [Roger Boscovich and origins of the "Theories of Everything"], Milan M. Ćirković and Edi Bon (2002): contributed paper to the 2<sup>nd</sup> conference on *Development of Astronomy among Serbs*, April 5-7, Belgrade, Serbia, *Publications of the Astronomical Observatory of Belgrade*, vol. **72**, pp. 177-187.
- 12.21. Borba za kosmografiju u Srbiji poslednjih decenija XIX veka [The battle for cosmography in Serbia during the last decades of the XIX century], Veselka Trajkovska, Milan M. Ćirković and Slobodan Ninković (2002): contributed paper to the 2<sup>nd</sup> conference on *Development of Astronomy among Serbs*, April 5-7, Belgrade, Serbia, *Publications of the Astronomical Observatory of Belgrade*, vol. **72**, pp. 165-175.
- 12.22. Many Times Interpretation of the Quantum Measurement Process. Miroslav Dugić and Milan M. Ćirković (2001): contributed paper to the 10<sup>th</sup> UK Conference on the Foundations of Physics, Queen's University Belfast, Northern Ireland, United Kingdom, 10-14 September 2001.
- 12.23. Origins of Philosophy of Science in Serbia: The Entropy Dispute. Radomir Djordjević, Veselka Trajkovska, Slobodan Ninković, and Milan M. Ćirković (2001): contributed paper to the XXI International Congress of History of Science, Mexico City, Mexico, 8 - 14 July 2001.

- 12.24. Makroskopski kvantni efekti u biofizici. [Macroscopic Quantum Effects in Biophysics] Dejan Raković, Miroljub Dugić, and Milan M. Ćirković (2001): in *Proceedings of the Satellite Symposium on the Quantum Epoch: 100 Years from the Discovery of Quantum* (Academy of Sciences of Republic of Srpska, Banja Luka, Bosnia and Herzegovina, 2001), pp. 22-47.
- 12.25. On a Physical Metatheory of Consciousness. Miroljub Dugić, Dejan Raković, and Milan M. Ćirković (2000): contributed paper to “New Science of Consciousness”, 3<sup>rd</sup> International Conference on Cognitive Science, Ljubljana, Slovenia, October 17-19, 2000, *Proceedings of the 3rd International Conference on Cognitive Science, Ljubljana, Slovenia*, ed. by Igor Kononenko, Information Society, Ljubljana, 2000, pp. 29-33.
- 12.26. QSO Absorption Lines, Gaseous Infall, and Star Formation in Spiral Disks. Milan M. Ćirković, Srdjan Samurović, and Vesna Milošević-Zdjelar (2000): contributed paper to the International Meeting on Galaxy Disks and Disk Galaxies, Rome, Italy, June 12-16, 2000, in *Galaxy Disks and Disk Galaxies*, ASP Conference Series, vol. 230. ed. by J. G. Funes, S. J. and E. M. Corsini (ASP, San Francisco, 2001), pp. 627-628.
- 12.27. Is There an Arrow of Time after All? Milan M. Ćirković (2000): contributed paper to the 2<sup>nd</sup> Serbian-Bulgarian Astronomical Meeting, Zaječar, Yugoslavia, June 23-26, 2000, ed. by M. S. Dimitrijević, L. Č. Popović and M. Tsvetkov, *Publications of the Astronomical Observatory of Belgrade*, vol. 67, pp. 13-18.
- 12.28. Quantum Entanglements in "Hybrid" Systems: Nonideal Quantum Measurement Can Increase Fidelity. Miroljub Dugić and Milan M. Ćirković (2000): contributed paper to the International Conference on Quantum Optics 2000, Raubichi, Belarus, May 28-31, 2000.
- 12.29. On Archeoastronomical Clues for Emergence of Mithraism. Edi Bon, Vesna Mijatović and Milan M. Ćirković (1999): contributed paper to the XII National Conference of Yugoslav Astronomers, *Publications of the Astronomical Observatory of Belgrade*, vol. 65, p. 159.
- 12.30. QSO Environment and Associated Damped Ly $\alpha$  Galaxies. Nataša Stanić, Milan M. Ćirković, and Srdjan Samurović (1999): contributed paper to the XII National Conference of Yugoslav Astronomers, *Publications of the Astronomical Observatory of Belgrade*, vol. 65, pp. 105-110.
- 12.31. Correlations of Quasars and QSO Absorption Systems. Luka Č. Popović, Milan M. Ćirković, and Saša Simić (1999): contributed paper to the XII National Conference of Yugoslav Astronomers, *Publications of the Astronomical Observatory of Belgrade*, vol. 65, pp. 97-100.
- 12.32. Belgrade-MACHO Project: First Two Years' Results. Vesna Milošević-Zdjelar, Srdjan Samurović, and Milan M. Ćirković (1999): contributed paper to the XII National Conference of Yugoslav Astronomers, *Publications of the Astronomical Observatory of Belgrade*, vol. 65, pp. 85-91.
- 12.33. Low Redshift Ly $\alpha$  Forest and the Column Density Distribution Function. Milan M. Ćirković (1999): contributed paper to the XII National Conference of Yugoslav Astronomers, *Publications of the Astronomical Observatory of Belgrade*, vol. 65, pp. 45-50.
- 12.34. Microlensing, flattening,  $\Omega_B$  and  $h$ : from assumptions, via data to tentative conclusions. Vesna Milošević-Zdjelar, Srdjan Samurović, and Milan M. Ćirković (1999): contributed paper to the conference on *Gravitational Lensing: Recent Progress and Future Goals*, ed. by T. G. Brainerd and C. S. Kochanek (ASP Conference Series, vol. 237, San Francisco), pp. 265-266.

- 12.35. Microlensing Results and Removing the Baryonic Degeneracy. Milan M. Ćirković, Srdjan Samurović, and Vesna Milošević-Zdjelar (1999): contributed paper to the conference on *Gravitational Lensing: Recent Progress and Future Goals*, ed. by T. G. Brainerd and C. S. Kochanek (ASP Conference Series, vol. 237, San Francisco), pp. 253-254.
- 12.36. Influence of the Star Formation Thresholds on the Duration of the Stelliferous Era. Milan M. Ćirković (1999): contributed paper to the XII National Conference of Yugoslav Astronomers, *Publications of the Astronomical Observatory of Belgrade*, vol. **65**, pp. 37-40.
- 12.37. Rotation of a High-Redshift Galaxy and Molecular Hydrogen. Milan M. Ćirković (1999): contributed paper to the XII National Conference of Yugoslav Astronomers, *Publications of the Astronomical Observatory of Belgrade*, vol. **65**, pp. 41-44.
- 12.38. On the Ionizing Sources in Spiral Galaxies: II. The Center of the Milky Way. V. Milošević-Zdjelar, S. Samurović, and M. M. Ćirković (1998): contributed paper to the *2<sup>nd</sup> Yugoslav-Belorussian Symposium on Physics & Diagnostics of Laboratory & Astrophysical Plasmas*, *Publications of the Astronomical Observatory of Belgrade*, vol. **61**, pp. 118-122.
- 12.39. On the Ionizing Sources in Spiral Galaxies: I. From Central Regions to Thick Disk and Disk-Halo Connection. S. Samurović, M. M. Ćirković, V. Milošević-Zdjelar, and J. Petrović (1998): contributed paper to the 19<sup>th</sup> SPIG, pp. 635-638.
- 12.40. Detection of Recombining Galactic Haloes out to  $z \sim 1$ . M. M. Ćirković, S. Samurović, and J. Bland-Hawthorn (1998): contributed paper to the 19<sup>th</sup> SPIG, pp. 631-634.
- 12.41. Ly $\alpha$  Forest and the Total Absorption Cross-Section of Galaxies – an Example of the NTT SUSI Deep Field. S. Samurović and M. M. Ćirković (1999): contributed paper to the International Workshop on *Observational Cosmology: The Development of Galaxy Systems*, Sesto Pusteria, Italy;,, ed. by G. Guiricin, M. Mezzetti and P. Salucci (ASP Conference Series, Vol. **176**, San Francisco), pp. 487-492.
- 12.42. A Note on the Milky Way as a Barred Galaxy. S. Samurović, V. Milošević-Zdjelar, M. M. Ćirković, and V. Čelebonović (1998): contributed paper to the *4<sup>th</sup> Yugoslav-Romanian Astronomical Meeting*, *Publications of the Astronomical Observatory of Belgrade*, vol. **60**, pp. 74-82.
- 12.43. The Intergalactic Pressure and Sizes of the Gaseous Halos of Field Galaxies. M. M. Ćirković (1998): contributed paper to the *4<sup>th</sup> Yugoslav-Romanian Astronomical Meeting*, *Publications of the Astronomical Observatory of Belgrade*, vol. **60**, pp. 5-15.
- 12.44. Distortion of the CMBR Spectrum: A Tentative Explanation. V. Čelebonović, S. Samurović, and M. M. Ćirković (1997): contributed paper to the Second Yugoslav Conference on Spectral Line Shapes, *Publications of the Astronomical Observatory of Belgrade*, vol. **57**, pp. 105-108.
- 12.45. Molecular Hydrogen at High Redshift: Rule or Exception? M. M. Ćirković (1996): contributed paper to the XI National Conference of Yugoslav Astronomers, *Publications of the Astronomical Observatory of Belgrade*, vol. **54**, pp. 25-29.

### 13. Papers in popular science

- 13.1. Supernova iz 1006. godine – milenijum zagonetke. [Supernova of 1006 AD – a Millenium-Long Puzzle] Milan M. Ćirković (1995): *Vasiona*, **XLIII**, 1, pp. 8-10.

- 13.2. Apsorpcioni sistemi u spektrima kvazara – prozor u prošlost. [QSO Absorption Line Systems – a Window to the Past] Milan M. Ćirković (1996): *Vasiona*, **XLIV**, 5, pp. 108-111.
- 13.3. *In memoriam – Robert H. Dike*. [In Memoriam – Robert H. Dicke] Milan M. Ćirković (1997): *Vasiona*, **XLV**, 1-2, pp. 31-32.
- 13.4. *Uspon i pad teorije Večnog stanja*. [The Rise and Fall of the Steady-State Theory] Milan M. Ćirković (1997): *Vasiona*, **XLV**, 3, pp. 53-60.
- 13.5. *Kosmički deuterijum*. [Cosmic Deuterium] Milan M. Ćirković (1997): *Vasiona*, **XLV**, 4, pp. 76-81.
- 13.6. Zagonetka hemijske evolucije kvazara. [A Puzzle of QSO Chemical Evolution] Milan M. Ćirković (1998): *Vasiona*, **XLVI**, 3, pp. 69-74.
- 13.7. In memoriam – Lajman Spicer. [In Memoriam – Lyman Spitzer] Milan M. Ćirković (1998): *Vasiona*, **XLVI**, 3, pp. 79-80.
- 13.8. *Potrošnja gasa u spiralnim galaksijama*. [Gas Consumption in Spiral Galaxies] Milan M. Ćirković (1999): *Vasiona*, **XLVII**, 1, pp. 6-10.
- 13.9. *In memoriam – Dejvid Šram*. [In Memoriam – David N. Schramm] Milan M. Ćirković (1999): *Vasiona*, **XLVII**, 1, p. 15.
- 13.10. *Uspon i pad teorije Večnog stanja II: konformno invarijantna kosmologija*. [The Rise and Fall of the Steady-State Theory II: The Conformally Invariant Cosmology] Milan M. Ćirković (1999): *Vasiona*, **XLVII**, 4, pp. 101-109.
- 13.11. *O čudima i centrima spiralnih galaksija*. [On Miracles and Centers of Spiral Galaxies] Milan M. Ćirković (2000): *Galaksija*, **293**, pp. 38-39.
- 13.12. *Kosmološka konstanta – ključ sudbine univerzuma*. [Cosmological Constant – Key for the Fate of the Universe] Milan M. Ćirković (2000): *Galaksija*, **299**, p. 64.
- 13.13. In Memoriam – Denis Šama [In Memoriam – Dennis Sciama] Milan M. Ćirković (2000): *Vasiona*, **XLVIII**, 5, pp. 116-117.
- 13.14. Međuzvezdana materija od A do B. I deo: faze međuzvezdane materije i molekularni gas. [The Interstellar Matter from A to B. Part I: Phases of the Interstellar Medium and Molecular Gas] Milan M. Ćirković, Vesna Milošević-Zdjelar, and Dejan Ilić (2001): *Vasiona*, **XLIX**, 1-2, pp. 19-28.
- 13.15. Uvod u antropičke principe. [An Introduction to the Anthropic Principles] Milan M. Ćirković (2001): *Vasiona*, **XLIX**, 3, pp. 48-53.
- 13.16. Bariogeneza: stvaranje našeg sveta. [Baryogenesis: the making of our world] Milan M. Ćirković (2001): *Astronomski magazin*, Novi Sad (electronic journal at <http://www.astronomija.co.yu>; article published at <http://209.204.204.238/am/teorije/bariogeneza/index.htm>).
- 13.17. Odlazak večnog buntovnika – Sir Fred Hojl (1915-2001). [The Departure of Eternal Rebel – Sir Fred Hoyle (1915-2001)] Milan M. Ćirković (2001): *Vasiona*, **XLIX**, 5, pp. 130-135.
- 13.18. Crni monolit i potraga za vanzemaljskim civilizacijama. [Black Monolith and the Search for Extraterrestrial Civilizations] Milan M. Ćirković (2002): *Astronomski magazin*, Novi Sad (electronic journal at <http://www.astronomija.co.yu>; article at <http://www.astronomija.co.yu/teorije/aliens/monoliti/monoliti.htm>).
- 13.19. *Frimen Dajson – biografija radoznalog čoveka*. [Freeman Dyson – A Biography of a Curious Mind] Milan M. Ćirković (2002): *Astronomski magazin*, Novi Sad (electronic journal at <http://www.astronomija.co.yu>; article published at <http://www.astronomija.co.yu/istorija/biografije/dajson/dajson.htm>).
- 13.20. Savremena kosmologija i religija. [Modern Cosmology and Religion] Milan M. Ćirković (2002): *Sv. Knez Lazar*, vol. **40**, no. 4, pp. 103-115.

- 13.21. Prikaz knjige: Stiven Hoking – Kosmos u orahovoj ljusci. [Book Review: Stephen Hawking – The Universe in a Nutshell] Milan M. Ćirković (2002): *Mladi fizičar*, vol. **89**, pp. 23-25.
- 13.22. “Orion”: oživljavanje zaboravljenog projekta? [“Orion”: Revival of a Forgotten Project?] Milan M. Ćirković (2003): *Astronomski magazin*, Novi Sad (electronic journal at <http://www.astronomija.co.yu>; article published at <http://www.astronomija.co.yu/nautika/orion/orion.htm>).
- 13.23. O “Space shuttle”-u, geniju i ratu politike sa naukom. [On Space Shuttle, Genius, and Conflict of Science and Politics] Milan M. Ćirković (2003): *Astronomski magazin*, Novi Sad (electronic journal at <http://www.astronomija.co.yu>; article published at <http://www.astronomija.co.yu/nautika/challenger/challenger.htm>).
- 13.24. Kralj Henri Drugi, Černobilj, Le Pen i naučni metod. [King Henry II, Chernobyl, Le Penn and the Scientific Method] Milan M. Ćirković (2003): *Treći program*, vol. **117**, pp. 56-60.
- 13.25. Senka izumiranja. [The Shadow of Extinction] Milan M. Ćirković (2003): *Vreme* weekly magazine, vol. **660** (28. VIII 2003), pp. 56-57.
- 13.26. Frimen Dajson – skica za biografiju radoznalog čoveka. [Freeman Dyson – a biographical sketch] Milan M. Ćirković (2003): *Mladi fizičar*, vol. **94**, issue “S”, pp. 20-23.
- 13.27. Rašljarenje po Sunčevom sistemu. [Dowsing in the Solar System] Milan M. Ćirković (2003): *Astronomija*, vol. **1** (September 2003), pp. 30-31.
- 13.28. Hipernove: rešenje zagonetke gama-bleskova. [Hypernovae: Solution of the Gamma-Ray Burst Puzzle] Milan M. Ćirković (2003): *Astronomija*, vol. **2** (October 2003), pp. 34-36.
- 13.29. Prikaz knjige: Karl Segan – Plava tačka u beskraju. [Book Review: Carl Sagan – Pale Blue Dot] Nikola Božić and Milan M. Ćirković (2003): *Astronomija*, vol. **3** (November 2003), pp. 46-47.
- 13.30. Slika sa naslane strane: Très Riches Heures. [Cover Illustration: Très Riches Heures] Milan M. Ćirković (2003): *Astronomija*, vol. **4** (December 2003/January 2004), p. 3.
- 13.31. Prikaz knjige: Zbornik radova XIII nacionalne konferencije jugoslovenskih astronomata. [Book Review: Proceedings of the XIII National Conference of Yugoslav Astronomers] Milan M. Ćirković (2004): *Astronomija*, vol. **5** (February 2004), p. 18.
- 13.32. Zemlja kao snežna grudva. [The Snowball Earth] Milan M. Ćirković (2004): *Astronomija*, vol. **5** (February 2004), pp. 36-40.

## 14. Membership

- 14.1. International Astronomical Union
- 14.2. Fellow of the Institute for Ethics and Emerging Technologies (<http://ieet.org/>)
- 14.3. Serbian Astronomical Society (Secretary 1998-2002; President 2002-2005)
- 14.4. Serbian Society for Science Fiction (co-founder; Secretary 1999-present)
- 14.5. National Committee of the Astronomers of Serbia (2002-2005)
- 14.6. Petnica Science Center astronomy programme
- 14.7. CASE artistic project
- 14.8. Philosophical Society of Serbia
- 14.9. World Transhumanist Association (<http://www.transhumanism.org/>)
- 14.10. Society for the History of Science, Belgrade
- 14.11. Photon Tide Group (<http://www.photontide.org/>)

## 15. Profession-related skills

- 15.1. **Computer skills:** Routine usage of Fortran 90 (and acquaintance with the Numerical Recipes) and IDL. Detailed knowledge of both DOS/Windows and UNIX/Linux operating systems. Common scientific applications, like Maple, Origin, Mathematica and SuperMongo, as well as non-scientific ones, but important for the general research work, e.g. MS Office, CorelDraw, Adobe Acrobat and Adobe Photoshop. Fair knowledge of HTML and Internet-related software. Acquaintance with software for Web-publishing and design, like Adobe PageMaker and MS FrontPage.
- 15.2. **Teaching experience:** Have been working as a Teaching Assistant at SUNY, Stony Brook (USA) for four semesters, in the following courses: Search for Life in the Universe (AST248, 2 terms), Introduction to Astronomy (AST101, 1 term) and Introduction to Planetary Science (AST105, 1 term). Have been teaching occasionally astronomy at intermediate undergraduate level at the Belgrade Planetarium, and have given more than 100 popular talks and lectures on astronomical topics in the 1996-2003 period. Currently in preparations for teaching a one-semester undergraduate course in cosmology at the Astronomy Group, Faculty of Sciences, University of Novi Sad. Currently supervising several advanced undergraduate research projects in theoretical astrophysics in collaboration with the Petnica Science Center.
- 15.3. **Linguistic skills:** Knowledge of English, Russian (fluent) and French (fair), as well as all of the languages of the former Yugoslavia.
- 15.4. **Organizational and administrative experience:** Member of the Governing Board of the Astronomical Observatory of Belgrade (2005-2008). Have organized three yearly cycles of lectures "Summer Astronomical Meetings" in the Planetarium of National Observatory of Belgrade (1998-2000). As a Secretary and subsequently President of the newly (re)formed Serbian Astronomical Society, contributed to the organizing and coordinating work of local astronomical community. The same applies to activities in the Serbian Society for Science Fiction, the first such organization on a national level

- in Yugoslavia. Member of scientific or local organizing committees for: The 2<sup>nd</sup> Conference on Development of Astronomy among Serbs (April 5-7 2002, Belgrade, Serbia and Montenegro), XIII National Conference of Yugoslav Astronomers (October 17-20, 2002, Belgrade, Serbia and Montenegro) and IAU Colloquium 197, Dynamics of Populations of Planetary Systems (August 31-September 4 2004, Belgrade, Serbia and Montenegro), XIV National Conference of the Astronomers of Serbia and Montenegro (October 12-15, 2005), meeting on *Religion and Epistemology* (Department of Philosophy, University of Belgrade, June 17-19, 2005).
- 15.5. **Librarian experience:** Have attended a course in librarian techniques organized by the National Library of Serbia in Fall 1996 at the request and expense of National Observatory, Belgrade, and afterwards helped in organization and maintenance of the National Observatory library.
- 15.6. **Popularization skills:** Apart from popular papers and lectures (§ 10 and 13), have for about 3 years worked on gathering news and writing short notes and reports for “Vasiona”, mainly in the field of cosmology. Regular associate of “Astronomski magazin”, an e-journal for popular astronomy (available at <http://www.astronomija.co.yu/>), as well as the science page of the B92 web site (<http://www.b92.net/zivot/nauka.php>). Has helped in publishing written several popular science books in Serbian language (consulting, writing prefaces/forewords, etc.). Works since Spring 2002 as an associate of the Third Channel radio programme of the National Radio Television of Serbia, devoted exclusively to cultural and scientific affairs. Has created 8 episodes of the TV series *Quark* for the local Studio B in Belgrade.
- 15.7. **Reviewing.** Served as a referee for *Theoretical and Applied Mechanics*, *Foundations of Physics*, *Astrobiology*, *International Journal of Astrobiology*, *Journal of Evolution and Technology*, *Australasian Journal of Philosophy*, *Facta Universitatis*, and *Serbian Astronomical Journal*.
- 15.8. **Editorial experience:** Member of the Editorial Board of *Open Aerospace Engineering Journal* (<http://www.bentham.org/open/toaej/EBM.htm>; 2007-present). Member of the Editorial Board of the “Astronomija” (2002-2007). Technical Editor of the *Publications of the Astronomical Observatory of Belgrade* (<http://www.aob.bg.ac.yu/paob/>; 2002-present). Edited a special theme issue of *Treći program* “On Einstein” devoted to Einstein’s 1905-2005 jubilee (vol. **121-122**, issue I-II 2004, pp. 53-109). Acted as a consultant of the publishing company “Laguna” of Belgrade for the popular-science editions (2004-2006).
- 15.9. **Miscellaneous:** Work reported in *Sky & Telescope*, vol. **107**, No. 3, March 2004, p. 47 in “The Anthropic Principle’s Astronomical Roots” by Govert Schilling. Inspired citation in the *Introduction* by Stephen Baxter to *The Engine of Recall* by Karl Schroeder (Robert J. Sawyer Books, Calgary, 2005), p. 7.

## 16. Sample talks and lectures

**Note:** Full list (of about 200 items) is available upon request.

- 16.1. *Interaction of Galactic Subsystems and QSO Absorption Lines*, Astronomical Observatory Belgrade, 18. VI 1997.

- 16.2. *The Cosmological Constant*, Dept. of Mathematics, University of Belgrade, 24. VI 1998.
- 16.3. *The Ionization History of the Universe*, National Observatory, Belgrade 7. VIII 1998.
- 16.4. *MACHOs and Baryonic Dark Matter*, Astronomical Observatory Belgrade, 21. X 1998.
- 16.5. *Structure Formation in the Universe*, Petnica Research Center, 26. II 1999.
- 16.6. *Growth of Complexity and Anthropic Principles*, Petnica Research Center, 18. X 1999.
- 16.7. *Anthropic Principles in Cosmology*, Institute of Physics, University of Kragujevac, 24. II 2000.
- 16.8. *Physical Eschatology*, Astronomical Observatory Belgrade, 19. IV 2000.
- 16.9. *Quantum Mechanics and Cosmology*, Dept. of Mathematics, University of Belgrade, 6. III 2001.
- 16.10. *Five Roads to the Arrow of Time*, Eötvös Loránd University, Dept. of Philosophy, Budapest, Hungary, 29. III 2004.

## 17. Translations

- 17.1. *Poslednja tri minuta* [The Last Three Minutes], by Paul C. W. Davies (Basic Books, New York, 1994), published March 2000 by Polaris Publishing Studio, Belgrade, 166 pages.
- 17.2. *Staljin* [Stalin – translated from Russian, with Danica Ćirković], by Edward Radzinsky (Lynn C. Franklin Associates, New York, 1996), independent translator's edition of Danica Ćirković, 1997, 630 pages.
- 17.3. *Carev novi um* [Emperor's New Mind], by Sir Roger Penrose (Oxford University Press, Oxford 1989), published January 2004 by Informatica, Belgrade, 480 pages.
- 17.4. *Kvantna elektrodinamika – neobična teorija materije i svetlosti* [QED – A Strange Theory of Light and Matter], by Richard P. Feynman (Princeton University Press, Princeton, 1985), expected to be published by the end of 2008.
- 17.5. *Kosmologija i naučna fantastika* [Cosmology and Science Fiction], by Stanislaw Lem, Polaris, vol. 4 (October 2003), pp. 94-103, Belgrade 2003.

## 18. Literary works and criticism

- 18.1. Prekognicija, populizam i politička korektnost [Precognition, Populism and Political Correctness], Milan M. Ćirković (2001): Orbis (časopis za književnost, umetnost i kulturu, Kanjiža, izlazi na srpskom i madjarskom jeziku), year VI, issue 1/2001, pp. 15-21.
- 18.2. Martin Hajdeger i Jagoš Purić – razmišljanja o dva rektora [Martin Heidegger and Jagoš Purić – Some Thoughts on Two University Presidents], Milan M. Ćirković (2002): Republika, br. 284-285, May 1-31. 2002, pp. 41-44.
- 18.3. Ciklična filozofija istorije u Simonsovoj “Tetralogiji o Hiperionu” [Cyclic Philosophy of History in Simmons' “Hyperion Tetralogy”]. Milan M. Ćirković (2003): Polaris, vol. 4 (October 2003), pp. 104-124.
- 18.4. Permanence: An Adaptationist Solution to Fermi's Paradox. Milan M. Ćirković (2005): *New York Review of Science Fiction*, vol. 17, issue 202, pp. 1-6.

- 18.5. Kvantni Černobilj, ili kako pasti na Olimp. [Quantum Chernobyl, Or How to Fall Down to Olympos] Milan M. Ćirković (2006): review of Dan Simmons' *Olympos*, fanzin *Nova*, vol. **04** (January 2006), pp. 7-8.
- 18.6. Književnost i antropički princip. [Fiction and the Anthropic Principle]. Milan M. Ćirković (2006): *Književni magazin*, vol. **66** (December 2006), pp. 2-7.
- 18.7. Lavkraft, astronomija, demitologizacija [Lovecraft, Astronomy, Demythologization]. Milan M. Ćirković (2007): *Književni magazin*, vol. **71** (May 2007), pp. 36-38.
- 18.8. Robert Enton Vilson (1932-2007): Legenda ovog i paralelnih svetova [Robert Anton Wilson (1932-2007): A Legend of This and Parallel Universes]. Milan M. Ćirković (2007): *Think Tank*, vol. **15-16**, pp. 45-47.
- 18.9. Ko predviđa predviđače? [Who Predicts the Predictors?] Milan M. Ćirković (2007): *Gradina* (Niš), vol. **19/2007**, pp. 320-328; reprinted in *Think Tank* (Leskovac), vol. **21-22**, pp. 33-36 (2008).
- 18.10. Aljehinov žanrovske apokrif [Alekhine's Genre Apocrypha]. Milan M. Ćirković (2007): *Think Tank*, vol. **19-20**, pp. 44-47.
- 18.11. *An Artifact for Space Travel: Essays on Science and Fantasy*. Milan M. Ćirković (2008): a collection of essays currently in preparation.
